

Landcare and the East Gippsland Catchment Management Authority invite you to uncover the dirt on your patch at their soils workshop. (2)

Get to know your dirt

Want to uncover the real dirt about your soils?

Landcare and the East Gippsland Catchment Management Authority (CMA) invite you to a soils workshop to help you gain a better understanding of what's happening right underneath your boots. The workshops are free and open to any landholder within East Gippsland.

Participants will learn the importance of soil - its formation, function, structure and chemistry - in a simple and easy to follow manner. Landcare asks that participants

bring along a soil sample from their own paddock for a hands on exercise to determine the soil type and texture of their patch.

Participants can choose from two sessions held on Wednesday evening, July 26, from 6pm to 8.30pm or Thursday morning, July 27, from 9am to 11.30am at 574 Main Street, the Department of Environment Land Water and Planning (DELWP) office in Balmssdale.

To reserve your place contact Carolyn Cameron at the CMA.
