LAKES TYERS ESTUARY OPENS

10 August 2015

The East Gippsland CMA advises that the Lake Tyers estuary opened on Saturday evening.

The East Gippsland CMA will continue to monitor water levels and stream flows into the estuary and provide further advice if the entrance closes again. Up to date information will be placed on the Authority's web site.

The Manager of Water Programs Ken Judd thanked those in the community who have assisted with data gathering in recent weeks. "This information is critical in helping us to monitor conditions", he said.
