

What a way to spend the day at work. Some lucky staff from East Gippsland Catchment Management Authority program team met with Parks Victoria's team in Orbost recently for a knowledge-sharing day in and around Cape Conran. The sessions help to share catchment and waterways information and build strong working relationships. (PS)

The group finished the day with a tour of the Yeerung River, which EGCMA's Phil Mehlert described as an outstanding local river and a wonderful example of a healthy waterway. (PS)

The sessions included a very informative presentation by Mike Irvine, Parks Victoria ranger team leader at Orbost, and Amelia Travers, ranger, outlining their roles and responsibilities. (PS)
